

## Environmental Standard for Residential Cleaning Services (GS-49) Certification Fee Schedule

Effective January 29, 2010

Green Seal's fees are based on the number of accounts cleaned by the service, the applicant's annual revenue, and other factors. An *evaluation* is necessary to verify that your cleaning service meets the standard. Also included is a review of labeling and any other marketing or promotional materials that feature the Green Seal Certification Mark. *Monitoring* is done periodically to ensure continued compliance with the standard. The monitoring fee begins to accrue from the date of certification and is due no later than the anniversary date of certification. Out-of-pocket costs for the audit, such as for travel, are in addition to these fees.

The fee schedule below reflects the basic cost of certifying cleaning services under a contractual application and license agreement with Green Seal, Inc. The base fee below includes auditing one account; additional account audits may be required and incur additional fees.
