

## Green Seal Re-evaluation Fee Schedule

Effective October 29, 2008

Green Seal's re-evaluation fees are based on the number of products submitted for re-certification, the certified product manufacturer's current annual revenue, and other factors. This re-evaluation fee is a one-time fee and does not affect or replace the annual monitoring fees. A re-evaluation is necessary to verify that the product meets the criteria in the new revised standard. Also included is a review of any additional marketing or promotional materials that feature the Green Seal Certification Mark. Out-of-pocket costs for the audit, such as for travel, are in addition to these fees.

*Please note: the fees listed below are to be used as reference only, actual fees will be determined during the re-certification process, in particular during the preliminary application submission or other correspondence directly with Green Seal, Inc.*

### **Fees for Re-certification of Private Label Licensing of Certified Products**

These are products with no change in formulation, but a different brand name and label from the certified product and sold by someone other than the original certified product manufacturer. Private label products must carry the same certification(s) as the original certified product. Private label applications cannot be re-certified until the original product has completed the re-certification process. (Auditor and travel charges to inspect the production facility are in addition to these fees.)

Evaluation fees: \$600 + \$400 for each additional product submitted at the same time.
