

July 27, 2009

**PROJECT UPDATE: Green Seal Environmental Standard for Sanitary Paper Products, GS-1**

**Public Review Comments:** Comments from the public were solicited on the Proposed Revised Standard from January 5, 2009 until February 23, 2009.

**Review and Research Comments on Proposed Standard:** Green Seal is in the process of reviewing the comments received from the stakeholders. Certain topics have required additional research and outreach and we thank the stakeholders for participating in this process. Green Seal has unfortunately run into some resource limitations resulting in the delay of the GS-1 revision. We are actively working on GS-1 and developing an updated draft of the standard. We anticipate that the next draft of the standard will be available for stakeholder review by September 2009, with a potential release of the issued revision by the end of the year.

If you have any questions, please contact Green Seal at (202) 872-6400 or email [standards@greenseal.org](mailto:standards@greenseal.org)

Sincerely,

Stacey Koch  
GS-1 Project Coordinator
